## WHAT ARE YOU WAITING FOR?

### **Advantages**

- +24-Hour operation / 3-shift operation without downtime
- +Exact cost calculation & control Cobots are billed on an hourly basis, only pay for productive hours
- +Advanced Robotic Workstation: Any cobot can be integrated
- +Flexible assistance solutions for different batch sizes and cycle times
- +Experts with industry experience in developing technologies
- +Support: Offering a well-trained, dedicated team operating via remote maintenance with additional on-site support teams to insure production is met
- +Short decision-making processes and trained employees ensure timely implementation: calculable and plannable

The particular challenges in today's employment market have made it nearly impossible for manufacturing companies to find and hold qualified and reliable employees.

With so many years of experience as a personnel service provider we have used this knowledge to create a production automation model from which everyone benefits:

**Human-RobotCollaboration**
